EXAMINER'S COMMENTS

Response to Arguments

1. Applicant's arguments filed 10/19/2007 have been fully considered and are persuasive.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance: the prior art could not alone or in combination anticipate or make obvious a bank note bundling machine with a tape feed unit and a tape winding unit with a movable tape gripper that grips the end of the tape and carries it around the bank note bundle, and a controller and printer.

The most pertinent prior art, TAKAMI, discloses a bundling unit with a tape reel (20) for holding tape (B) in a wound state. A tape feed unit (8, 9) feeds the tape to a movable tape gripper (11) and the tape is then guided around arch (12) until a predetermined tightness is reached. However, the gripper of TAKAMI does not move around the bank note bundle, but remains stationary while the end of the tape is guided around a channel.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
